**Census 2020 Information**

The 2020 Census’ impact on our communities is profound. It shapes everything from fair political representation in Congress to funding for our roads, hospitals, schools and fire departments for the next decade. Your census information is confidential, and we have a legal and moral responsibility to take part.

Federal Funding: Over $800 billion in federal government funding will be determined by the 2020 Census count. The 2020 Census will impact how many teachers are hired in our local schools and how many nurses and beds are in our local hospitals. From roads to food assistance, when people are not counted, our communities lose out.

Political Power: The 2020 Census will determine how many representatives our state will send to Congress and how our congressional district will be drawn. State and local governments use Census data to redraw state legislative districts.  

*Last Census New York lost 2 Congressional seats!*
